

No. PDMA/PEOC/G-Advi-03-06/2026

Dated Peshawar the 18th June, 2026

To

- The Deputy Commissioner,
1. Chitral Upper
 2. Chitral Lower
 3. Dir Upper
 4. Swat
 5. Kohistan Upper
 6. Kohistan Lower
 7. Mansehra

Subject: GLOF ALERT

Dear Sir,

I am directed to refer to the subject cited above and to state that the Pakistan Meteorological Department (PMD), Research & Development Division, Islamabad, has informed that a weather system is expected to influence the upper parts of the country from 18th to 22nd June, 2026, bringing rain, wind, and thunderstorms activity in parts of Khyber Pakhtunkhwa. The system is likely to produce moderate to heavy falls at isolated locations, particularly over vulnerable catchments in the region.

The anticipated rainfall may substantially elevate the risk of Glacial Lake Outburst Flood (GLOF) events, flash floods, debris flows and localized landslides in susceptible glaciated and snow-fed valleys of Khyber Pakhtunkhwa. Area of particular concern include Swat, Chitral (Upper & Lower), Kohistan (Upper & Lower), Dir Upper and Mansehra districts as well as the valleys of Matiltan, Mankiyal, Gabral, Arkari, Kumrat and Kandia.

Possible Impacts:

- Isolated rain may cause a significant rise in water levels of rivers, streams, and nullahs.
- Saturated slopes and unstable terrain may increase the risk of landslides, mudslides, debris flows and rockfalls in mountainous areas.

In view of the above weather conditions, you are requested to kindly take all necessary precautionary measures to avoid any loss of life/ livestock and damages to infrastructure/ crops. Furthermore, all concerned authorities are requested to take the following safety measures:

- a) **Undertake proactive monitoring and surveillance** of vulnerable GLOF Sites in order to ensure timely early warning and response.
- b) To conduct **evacuation drills** in at-risk communities in order to ensure full preparedness.
- c) To ensure that safe **evacuation sites** are fully stocked and ready for utilization in case of any eventuality

PDMA

- d) **To alert** population residing in low lying areas.
- e) Ensure that **local community** of at-risk/ vulnerable areas is forewarned.
- f) Ensure the **availability of Emergency/ Rescue Services personnel and C&W/ equivalent departments** during the period.
- g) **Pre-place necessary emergency equipment** for rapid response in case of any eventuality.
- h) **Mass awareness campaign** for general public on GLOFs in at risk areas covering following aspects: -
 - i. Avoid proximity to riverbanks and stream beds during the heatwave period.
 - ii. Avoid unnecessary movement in such areas, especially the discharge nullahs / streams and rivers.
 - iii. Risk, consequences and danger of washing away of vehicles in fast-flowing water channels.
 - iv. Monitor local nullahs for sudden changes in water color (muddiness) or unusual sounds (grinding rocks)
 - v. Alerting general masses living in low-lying areas to exercise extra caution including community-based alert system.
 - vi. Secure livestock and essentials in higher safe grounds
 - vii. Coordinate closely with community Based Disaster Risk Management Committees (CBDRMCs)
 - viii. Maintain active communication links with technical focal persons in remote valleys.
 - ix. Evacuation plan of at-risk community and its timely evacuation.
- i) **Tourists/ Travelers** in at-risk/ vulnerable areas be forewarned of risk and advised to avoid any unnecessary travel.
- j) **Coordinate** with **Concerned Departments (NHA, FWO and C&W)** for the timely restoration of roads/ bridges in case of any blockage, obstruction/ closures and damage.
- k) In case of heightened risk, controlled breaching of vulnerable GLOF sites may be coordinated with the concerned departments, to prevent sudden outburst events
- l) In-case of any eventuality, routine updates will be shared with PEOC, PDMA i.e., active round the clock via toll free helpline 1700.

(Fahad Tahir)
