GOVERNMENT OF KHYBER PAKHTUNKHWA

RELIEF, REHABILITATION & SETTLEMENT DEPARTMENT

Request for Proposal (RFP)

CONSULTANCY SERVICES FOR “FORMULATION OF DISASTER RISK REDUCTION (DRR) POLICY KHYBER PAKHTUNKHWA”

TERM OF REFERENCES FOR CONSULTANTS /COMPANY

The Khyber Pakhtunkhwa PDMA, being the lead focal agency for disaster management and preparedness recognizes the need to formulate the provincial Disaster Risk Reduction Policy in collaboration with stakeholders. The Disaster Risk Reduction Policy will promote priority measures and recommendations to alleviate existing vulnerabilities to hazards/disasters which have been exacerbated by Climate Change and ensure that future development initiatives have resilience incorporated as one of their primary objectives. The DRR Policy will also provide guidelines for improved emergency response, and both timely and adequate investment in hazard mitigation and preparedness interventions; which will reduce the risks, damages and economic costs associated with response, recovery, and rehabilitation efforts. The DRR policy for KP PDMA will cater to the needs of provincial climate refugees, recognizing their vulnerability and addressing their specific needs in disaster risk reduction planning; by prioritizing the development of resilient infrastructure and services that can provide climate refugees with access to essential services. The DRR Policy will focus on PDMA capacity-strengthening and community-based interventions, including Early Warning Systems and community-led disaster risk reduction activities.

Scope of Work/ToRs

The duties of the Expert team/Firm will include, but are not limited to:

- a) Identify the sectorial lead and formation of Sectorial Working Groups and Sub Working Groups
